

"We would have never gotten where we are today if it hadn't been for your support and patience."

"We have the opportunity to see firsthand how you make sure each individual's needs are met. You do this with tenderness, always making sure each person is shown the dignity and respect they deserve. She loves where she's at, and this is priceless to us as a family."

"I tell people to get to this program no matter what level of independence they are at because it can only help you."

"As always, the process of getting the new wheelchair was flawless."

"The team at CPRF - from reception to PTs to Mygyvers in the back - is amazing! I can't say enough good about them."

"CPRF played a very big role in assisting me in being independent. Being employed by CPRF and living at the Timbers came at a time in my life when I really needed that sense of independence to get back on my feet."

"This chair has added at least 5 years to her life..."

"My experience in the SACT Program was the pinnacle of my education. I have gained a massive amount of computer skills and financial pointers. I am confident that this class will help me greatly in my future occupational journey."

"Brianna's chair is her life. Without her wheelchair, we cannot access anything in her world..."

"Your maintenance guys are simply the best! I can't say enough good about their listening skills and troubleshooting skills."

"Thank you for always greeting with a smile whenever I have something go wrong with my chair."

"The physical gains as well as the support that I receive... has had a significant and positive impact on my life as a whole..."

2017

ANNUAL REPORT

Cerebral Palsy Research Foundation of Kansas

CPRF provides people with disabilities of all ages the customized services, support, and technology they need in order to facilitate their chosen personal and economic independence, with an emphasis on employment and training opportunities.

Founder

John F. “Jack” Jonas, Jr.

(1931-2014)

DANIEL M. CARNEY

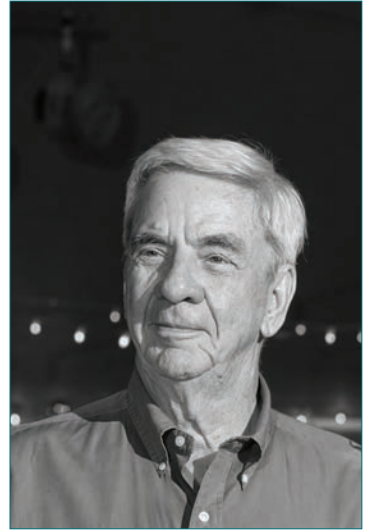

Chairman of the Board

2017 was another successful year in advancing the CPRF mission and that of our affiliates, Center Industries and Business Technology Career Opportunities. On behalf of the Board of Directors, I would like to thank those who have assisted us along the way.

CPRF, CIC, and BTCO are very fortunate to have tremendous corporate, governmental, and individual supporters. We could not accomplish the core focus of our mission, which is to provide training, employment opportunities, and a life of chosen personal independence for those with disabilities, without these valuable partnerships.

In addition to recognizing these vital collaborations, I would like to thank those who serve on our Board of Directors, who have all given generously of their time and resources, some of whom have supported the organization for decades. We are truly blessed to have such a dedicated and diverse group of talented professionals to provide guidance and who recognize the value of our mission.

It is my hope that the successes we have experienced in 2017 will continue for years to come.

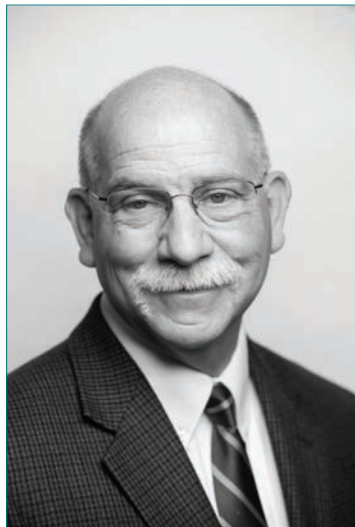

God Bless,
Dan

OUR LEADERS

PATRICK T. JONAS

President & CEO

It is hard to believe that 2017 was CPRF's 45th anniversary. The vision for CPRF grew from its founder (my father), "Jack" Jonas, who was challenged by a speech pathology client in the 1960s to do more for adults with disabilities. The client, Pat Kraft, was frustrated that after all his hard work in speech and schooling, his only option was to go back home to live with his parents.

Pop took Pat's words to heart, and when he became Executive Director of United Cerebral Palsy of Kansas, my dad began a decades-long quest to provide greater opportunities for adults with disabilities. With the help of founding board members, early successes included creating a summer camp for people with disabilities, building an accessible urban residential facility, and (the highlight) passing legislation for special education services in Kansas three years prior to the federally-mandated system.

The Cerebral Palsy Research Foundation of Kansas grew out of UCP to allow more flexibility in program development and to satisfy the entrepreneurial spirit of the founder and board. We are tremendously grateful to

our exceptional board, our dedicated employees, and a slew of corporate, foundation, governmental, and individual supporters for their assistance in advancing our mission.

In 2018, we will be going full circle. Dave Jones, Executive Director of UCP, is retiring after nearly 40 years, and UCP's programs will be consolidated into CPRF. The equipment program, information and referral services, and statewide United Way affiliations will be dedicated to a new Community Outreach Department. We are extremely fortunate to have Dave join the CPRF board in March.

CPRF continues to design innovative programs, implement legislative initiatives, and create employment opportunities for people with disabilities to fulfill the dreams of that bright young man and the founder who would not back down from the challenge.

Thank you for all you do for those we serve,
Pat

Janitorial Services

"It's given her a sense of purpose, to get out and do something everyday. We want her to have an alternative to being at home. She's benefitting from...the social aspect and going in a different direction than she would have from just being at home. We appreciate the people that work with her and the care she's given."

– Susan, *Deb's mom*

Our Adult Day Services team ensures that each client's individual needs are met every day. With amenities such as an accessible garden in our private courtyard, a wheelchair swing, sensory room, private swimming pool, community outings, and many other indoor learning and recreation opportunities, our clients have a variety of stimulating activities to choose from. We are able to offer these options thanks to the help of generous volunteers such as the Sedgwick County Master Gardeners, Wichita State University School of Music, United Way of the Plains, and many other community organizations. Caregivers can be confident that we provide their loved ones with excellent care.

ADULT DAY SERVICES

Our case managers coordinate services for more than 100 individuals with disabilities each year, focusing on advocacy, service provision, resources, funding, and helping clients understand their rights and responsibilities. We also offer the WORK Program through the State of Kansas, which is a service for individuals with disabilities who want to work, but still need to receive their vital health and long-term care coverage.

CASE MANAGEMENT

"He wouldn't be able to do half the things he does...he loves playing games and sports...going to school, he likes to do anything a normal four year old would do. He's able to support his core area because his seat is so much more comfortable and customized to him... it helps his posture so he can work with his hands a lot better."

-Tiffany, *Sutton's mom*

Our Wheelchair & Posture Seating Clinic addresses the needs of more than 780 adults and children with physical disabilities every year, building custom chairs that suit the needs and lifestyle of each individual. Designed to enhance comfort, provide better body alignment, and minimize the risk of pressure sores, our seating systems range from manual chairs to intricate power wheelchairs. Physical and Occupational Therapists are on-staff to work with each client to ensure that we build the best seating system possible. All of our wheelchair seating systems are built in-house by technicians with decades of specialized experience. Technicians and therapists work together to ensure each client receives the best chair for their optimal mobility, comfort, and independence.

WHEELCHAIR & POSTURE SEATING CLINIC

"It's been 5 years and it has improved me everyday. Therapy is my lifeline. I have mobility and little things that people take for granted." – Gregory

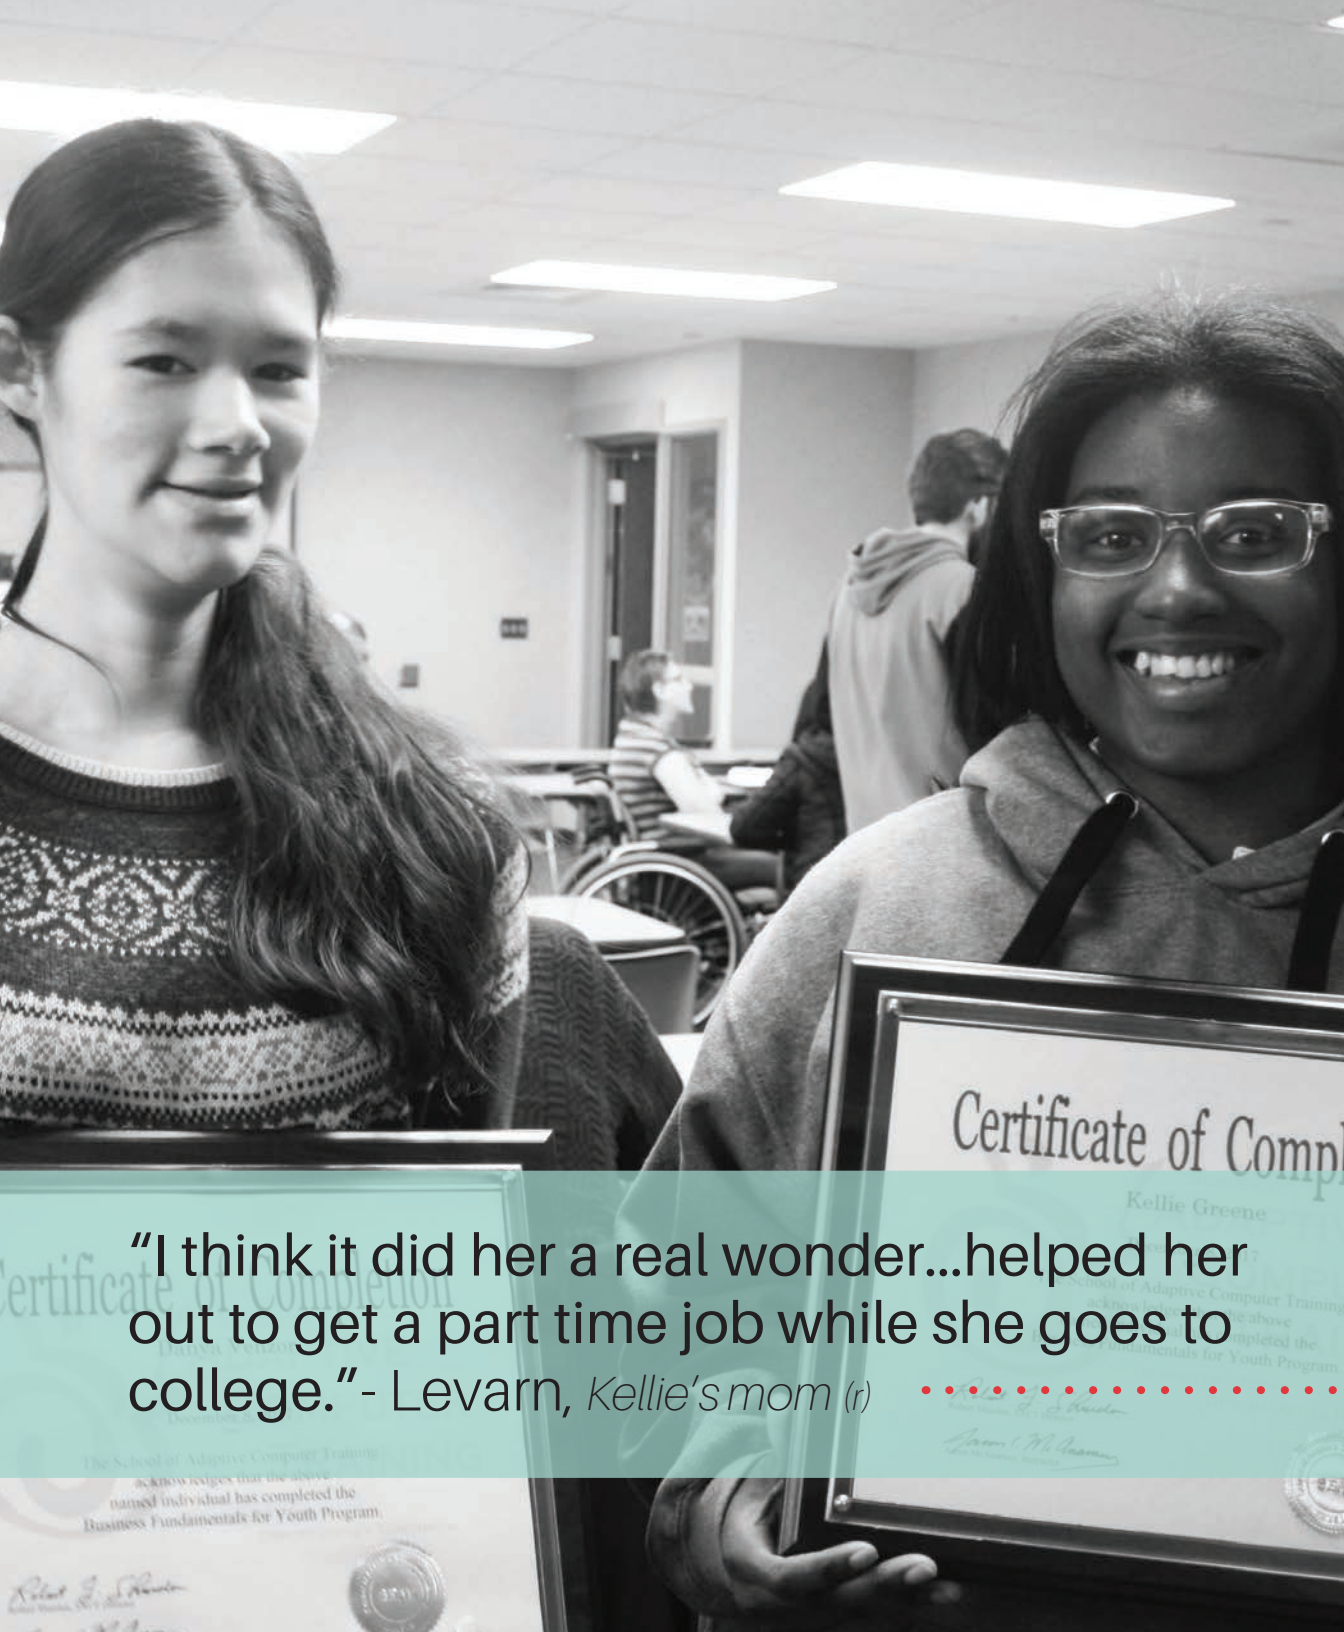

The CPRF Exercise and Wellness Program promotes physical fitness for people with disabilities through strength training, improving flexibility, and pain-controlling exercises. Our Certified Restorative Aide works with each client individually in our private gym on the Timbers campus. All exercise programs are written and prescribed for each client by an Occupational/Physical Therapist. Our equipment includes parallel bars, standing frames, hand cycles, a para-gym for wheelchair-accessible weight training, stretching mats, and our newest additions: elliptical and cardio strider.

EXERCISE & WELLNESS

KWIN provides Work Incentive Planning and Assistance services to Kansans with disabilities who want information about Social Security work incentives and community supports. In order to help people make informed employment decisions as they transition to and/or advance in employment, KWIN clients are offered guidance, benefit analysis, and a work incentive plan by Social Security Administration-certified Community Work Incentive Coordinators.

KANSAS WORK INCENTIVES NETWORK

"I think it did her a real wonder...helped her out to get a part time job while she goes to college." - Levarn, *Kellie's mom (r)*

The School of Adaptive Computer Training

Robert J. S. Hamilton
Levarn C. McNamee

The SACT is devoted to improving job-marketable skills for people with disabilities. In addition to our Microsoft-approved curriculum and Microsoft suite certifications, we offer courses in computing fundamentals and customer service. Our partnership with Workforce Alliance of South Central Kansas, USD 259, Mulvane School District, Haysville School District, and United Way of the Plains has allowed us to offer morning, afternoon, and summer classes for high school students with disabilities to learn valuable workplace skills and earn Microsoft certifications in Word and Excel while earning school credit. Since the program started in 2008, 313 students with disabilities have graduated from the program and 85% have passed at least one Microsoft Certification exam.

SCHOOL OF ADAPTIVE COMPUTER TRAINING

"I like the camaraderie...I look forward to getting together with other people."

-Nancy, *Timbers resident*

The Timbers is a 100-unit apartment community for people with physical disabilities, featuring roll-in showers, roll-under sinks and counters, accessible switches, and more. In addition to these amenities, the Timbers also has three FEMA tornado shelters throughout the campus for safety. Our wheelchair-friendly, open concept apartments and facilities make it possible for our residents to live life how they choose and to have a space that is all their own. Craft and book clubs, community guest speakers, and other engaging social activities allow residents to connect with each other. Timber Lines Transportation provides wheelchair-accessible rides to help residents and community members get to work, go grocery shopping, and keep appointments.

TIMBERS APARTMENTS & TRANSPORTATION

Our Vocational Assessment team administers tests to measure aptitudes, skill levels, abilities, interests, work values, and more. The results generate a variety of potential careers and/or training programs that would suit the client. Our one-on-one approach ensures clients receive more precise employment recommendations, which can reduce job-related dissatisfaction and turnover rates.

VOCATIONAL ASSESSMENT

"Santiago is going to be successful. He has overcome a lot of barriers to get where he is today, and his dedication to success speaks for itself." - Linda Oxford, *Job Placement director*.

Santiago now works at Center Industries Corporation as a CNC Machinist.

The CPRF Job Placement department guides people with various vocational barriers to the right position through resume development, mock interviews, and application and job search assistance. Through Ticket to Work, End-Dependence Kansas, and other programs, we work with people individually to ensure they find a job that suits their career goals and abilities. Our staff further assists in the job hunt by educating clients on a potential employer's expectations, changes in the job market since they were last employed, and what to expect from the jobs they seek.

JOB PLACEMENT

The Janitorial Services program allows CPRF to offer more integrated employment opportunities for people with disabilities. This program provides part-time and full-time work with competitive wages and health benefits in the porter and janitorial fields. Our services include: floor cleaning, trash removal, dusting, window cleaning, porter/matron services, and other routine cleaning duties.

PETER JOHN LOUX AWARD

The Peter John Loux Award provides an annual recognition gift to a Kansan who demonstrates exceptional desire and dedication in overcoming their disabilities.

Any Kansas resident 18 years of age or older with a congenital or acquired physical or neurological disability may be nominated

by another person or apply on their own behalf. Each Peter John Loux Award winner receives \$1,000 and a commemorative plaque..

The award is an endowed gift established by the late Richard C. "Pete" Loux in memory of his son, Peter John. Mr. Loux, a lifelong advocate for people with disabilities, used his

influence as the Kansas House of Representatives Minority Leader to help launch Center Industries Corporation in 1975. He also served on the CPRF Board of Directors from 1972-2004.

For more information about the Peter John Loux Award, contact Molly Tully at mtully@cprf.org.

LOGAN DAVIS

Logan was born with a condition called pulmonary stenosis, which is a cardiac defect. He also has Asperger's Syndrome; a form of Autism Spectrum Disorder, which is a condition characterized by persistent impairment in social interactions and by repetitive behavior patterns and restricted interests.

He participated in speech therapy throughout grade school and focused on learning social skills, facial expressions, and how to engage in reciprocal

conversation.

It is difficult for Logan to write. In order to communicate by written word he has learned to use a computer and key board, which is not an easy task because the tendons in his fingers are tight and lack flexibility. In order to use a computer, Logan had to go through many hours of physical therapy, occupational therapy, and vision therapy.

Logan has extremely tight skin, with his sensory nerves very close to the surface of the skin, making it uncomfortable for him to be touched. While painless for the average person, a pat on the shoulder is uncomfortable and even painful for someone with Asperger's.

For many years, Logan participated in Special Olympics swimming, basketball, and summer events. While in high school, he was one of only 60 students selected from Kansas to attend the Robert J. Dole Institute for Political Leadership Camp. He also made the honor roll every year, was a member of the National Honor Society, and played soccer.

At his high school graduation he received, by unanimous faculty vote, the Outstanding Student in American History Award bestowed by the Daughters of the American Revolution.

Logan also volunteered over 300 hours at the Robert J. Dole VA Medical Center, which has resulted in a growing empathy for our veterans.

He earned a full scholarship to Butler

Community College as a student worker in the Athletics Department, where he works as a statistician for soccer and basketball games. In this fast-paced position, he is required to remember a detailed list of tasks for each game.

“Logan has done a great job with a demanding task that requires him to input information into a computer at the speed of the game.” said Associate Athletic Director. He went on to explain that the other student workers consider Logan to be one of their leaders and they look up to him because of his knowledge and experience.

Logan will graduate from Butler Community College in the spring of 2018 and plans to pursue a degree in Sports Management at Wichita State University.

As his neighbor, a retired United States Air Force Colonel, shared in his recommendation letter, “Logan has maintained high academic achievements and with a chance to continue his education, his exceptional ability to remember and apply facts and details will be a positive factor in his future.”

According to his grandmother, Logan is a remarkable young man who sets daily goals as well as life goals. He has accomplished things the average person his age has not. He is hard-working, thoughtful, and considerate.

Surrounded by his family, friends, and the whole CPRF team, Jacob received a check for \$1,000 at an awards banquet.

RIVER CITY ROLL

BLACK & WHITE BASH

More than 400 guests attended the June 2017 River City Roll: Black & White Bash. This biennial event raised \$202,000 for the CPRF Equipment Fund, which provides financial assistance for those in need of assistive technology and medical equipment such as power wheelchairs, home modifications, van lifts, and more throughout the state.

Guests enjoyed live and silent auctions, dinner, drinks, and dancing, while supporting their community.

BTCO showcases a motivated, skilled team of people, both with and without disabilities, working side-by-side and pooling their expertise to provide solutions in digital document imaging, mailroom operations, data services, and precise-tolerance plot printing.

A model of workforce integration success in both Wichita and Topeka,

BTCO has created a powerful business model that measures its success by steady growth in workforce and customer satisfaction.

Having begun with a single contract in 2001, BTCO now boasts a wide range of customers, from rural school districts to universities, from local and state governments to commercial businesses, and more.

BTCO, INC.

Founded by CPRF in 1975, Center Industries Corporation employs approximately 280 people, with more than 75% of the direct labor hours being performed by people with disabilities.

Employees specialize in a wide range of manufacturing disciplines, including Boeing window belts, Kansas license plates, metal fabrication, CNC machining, printing, parts assembly, and more.

Using assistive technology, Center Industries prides itself on its ability to modify job stations for those with limited mobility.

By creating optimal options for productivity for all employees, CIC can contract with private and public industries on the same level as a traditional manufacturing company. Complementing CPRF's mission, CIC employees are paid competitively with benefits.
