

THE SCHOOL OF ADAPTIVE COMPUTER TRAINING

To enhance the computer technical skills and marketability of people with disabilities and others affected by the digital divide.

Business Fundamentals for Youth Program

Advanced Computer Skills and Work Readiness

Whether preparing for employment or continuing education, the School of Adaptive Computer Training (SACT) can help. The SACT offers three semester-long classes for high school youth with disabilities. Achieving Microsoft Office Specialist (MOS) certifications demonstrates advanced computer skills in using Microsoft applications in the real world. Learning key work readiness and customer service skills equips students to handle interactions with coworkers, supervisors, and customers. Each class has no prerequisite course so students may enroll in 1, 2, or all 3 classes.

Microsoft Office Word Certification

- Learn basic to advanced skills in Word
- Perform real world practice exercises
- Practice tests for the MOS certification exam
- MOS certification exam included
- Positive results: MOS Word Certification, increased computer and technology skills, enhanced resume, and improved confidence.
