

THE SCHOOL OF ADAPTIVE COMPUTER TRAINING

To enhance the computer technical skills and marketability of people with disabilities and others affected by the digital divide.

Microsoft Office Application Training Introductory Microsoft Word for the Workplace

Class Description:

The successful student will learn to perform basic Word skills including creating, saving, revising, formatting and printing documents. In addition, the student will learn to perform intermediate tasks such as building and formatting a table of contents, a bibliography, footnoting, headers, footers, and more.

**Enroll now for
classes beginning:**

SCHEDULE

20 hours of training in 2 weeks.

Monday — Friday

1:30 p.m. — 3:30 p.m.

Available online or in-person

Led by Experienced MOS Specialist Master Instructor

Program Description:

This class is part of a series designed for students with minimal computer experience. Each class will feature training in one key application of the Microsoft Office Suite including a class for each of the following: Word, Excel, and PowerPoint. These classes are designed to be taken independently of each other. The student may begin with any class in the series and may take the classes in any order.

Topics Covered

- >> Microsoft Windows 10
- >> Microsoft Word 2019
- >> Keyboarding
 - >> Typing
 - >> Data Entry

Expected Student Outcomes

- >> Achieve competency in Word 2019
- >> Improve Typing and Data Entry Speed and Accuracy
- >> Demonstrate Excellent Attendance and Punctuality

It's about employment and independence for people with disabilities. The rest is technology.
